Herzliche Grüße

Athens, 9th of January 2017

We would like to express our sincere thanks and appreciation for your generous donation to Anemos Ananeosis / Wind of Renewal in order to support the Welcommon project for housing and integration of refugees. Welcommon is implemented by the social enterprise Anemos Ananeosis / Wind of Renewal, in cooperation with the Athens Development and Destination Management Agency (EATA), in the framework of the relocation program of the United Nations High Commission for Refugees (UNHCR).

Welcommon aims to provide temporary accommodation for refugees but also to promote their social integration in collaboration with the local community. On 12 October 2016 Welcommon received the first refugees and until the end of 2016 it has been hosted 243 refugees.

Your donation amounting 20.000,00 € was very useful for the implementation of the project. Part of the amount has been used for building construction and preparation (e.g. painting, repairs, buy of washing machines, tumble dryers, refrigerators etc.). The rest of the amount has been used in order to be able for Welcommon to meet the specific needs of the population and offer quality services (e.g. medicines, vaccines, nutrition).

Thank you again for your generous donation. The support of initiatives like yours makes it possible for our organisation to implement the project.

Sincerely,

Nikos Chrysogelos  
President of Anemos Ananeosis / Wind of Renewal
