## **REPORT OF USAGE OF 2500 EURO DONATION FOR TREEPLANTING IN GREECE**

17 January 2022

To whom it may concern:

We are pleased to confirm to you that the tree-planting project that we executed by your kind donation of 2.500 euros has been successfully completed by December 2021.

The 2.500 euros corresponded to 500 young trees.

We planted 95% of those trees in an area of Attica that was affected by the summer fires, which however was not a forest before, but had low vegetation.

By planting the trees we were able to create a new small forest, to which we added even more trees of our own.

The location is at the PIKILO MOUNTAIN in Attica, in the region called Zofria:

<https://goo.gl/maps/K6NGMtM7JWzg2y6r5>

38°03'36.8"N 23°40'22.0"E

The trees have been watered by us and the winter weather and will be watered by us for the next 2-3 years until they stably grow by themselves.

500 trees are expected to produce 58.500 kg of O<sub>2</sub> per year and absorb 11.000 kg of CO<sub>2</sub>.

The remaining 5% was planted as part of our children educational project "Green Future" and was planted by children in schools or outdoors.

We are grateful for your donation and we are at your disposal for any further cooperation.

See below pictures of the tree plantings:
